

Do you want to help ensure that the technology solutions of the future are still produced on Funen?

Electronics operator - SMD

Do you thrive on a versatile everyday life in a busy production company, where there are room for your own ideas and always a smile? Then Micro Technic A/S might be your new workplace!

At Micro Technic A/S, we are looking for an electronics operator for our SMD department. Our team consists of 6 people, with its own team leader. We value efficiency, good team spirit/cooperation, as this is the cornerstone of a good working environment. We produce smaller series, and our workday is varied and offers many functions in the department.

As part of the team, you will work with:

- SMD mounting on fully automatic equipment
- Screening of print, programming of screening programs and possibly vision programming for paste printing
- Production preparation incl. setup and dismantling
- Troubleshooting and minor repair of prints

You possess the following personal competencies:

- Is meeting stable.
- Likes to be busy in a good and dynamic environment
- Is flexible and always seeks the good solutions together with your colleagues.
- Have a mindset to be able and willing to learn

Professional skills:

- Has relevant technical flair, possibly supplemented by operator courses
- Has a good knowledge of electronic components and ESD-secured assembly

If you are new in the world of electronics but would like to get acquainted and work with electronics assembly, do not hold back from applying for the above position. We train internally and via courses to get you off to a good start.

If you are employed by Micro Technic A/S, you will work in a committed team of colleagues with an informal tone and with good stable working conditions. We look forward to receiving your application.

For further information, please contact Production Manager Jimi Sandgreen or team leader Anita M. Jensen on tel. 66153000. You can also contact via www.micro-technic.com

We invite ongoing candidates for interview, so apply for the position as soon as possible via email to jobs@micro-technic.com tagged "Electronics Operator".

Micro Technic A/S is a well-consolidated, internationally oriented company in progress. Dynamics, flexibility, and quality are key words for us, and skilled employees are a precondition for Micro Technic's continued development.

Micro Technic A/S develops and produces customer-specified electronics and appliances as a total supplier. We also develop and market our own products, such as industrial IoT devices and wireless sensor solutions supported by a newly developed IoT platform, as well as embedded products, which are sold through distributors and OEMs in the export market. The company employs approx. 50 employees.
